New Products to Mayo Healthcare

- EZ-IO Access System
(Intraosseous Access)

The New Generation in Securement

GRIP-LOK

- Soft and flexible fabric design improves patient comfort
- Low profile with no pins or hard plastic parts
- Provides excellent securement for both horizontal and vertical lifting accidental pulls
- Simple to apply, inspect and adjust
- Hypoallergenic, breathable and latex-free to reduce the risk of allergic reactions and skin irritation
- Easily secures to the hub "wings" or the alternate catheter clip

The Right Line > The Right Patient > The Right Time > The Right Securement

New configuration of 3F Arrow PICCs

- Currently are seeking feedback from customers regarding a new configuration of 3Fg PICC.

** Ask your territory manager if you are interested in providing feedback on this line extension.*
