

Our Team ~ Our Strength

All Mayo Healthcare education is facilitated by experienced, qualified Clinical Educators and Consultants. Our expertise in the clinical application of non-invasive ventilation, intra aortic balloon pumping and vascular access, along with our strong customer focus make us the perfect partner for your education needs.

National Clinical Educators

Alanna McInerney - National Education Manager
RN BBSc Post Grad Cert (Critical Care) Cert IV Workplace Training and Assessment

Alanna's extensive critical care and clinical education expertise places her well to lead an outstanding team of Educators. Her passion for excellence ensures a strong commitment to continuing improvement in all programs.

Joy

Joy Blacka
RN BNg MCP Clinical Consultant

Joy's extensive experience in the insertion and care of all vascular access devices ensures an outstanding and enjoyable workshop.

Traci Wellington
RN Cert IV Workplace Training and Assessment

Traci's expertise in NIV therapy and her dedication to ongoing clinical education combine to provide excellent learning opportunities.

Marguerita Cirillo
RN BN Grad Dip ICU

Marguerita's passion for ICU and clinical education combine to provide outstanding learning opportunities for all participants.

Traci

Marguerita

Jenene

Jenene Galbraith
RN BN MN (Critical Care)
Cert IV Workplace Training and Assessment

With her broad experience in critical care, Jenene is committed to delivering exceptional clinical education.

Sam Ho
RN BN MN (Critical Care)

Sam brings with him over 15 years of critical care experience. His passion for clinical excellence and innovation makes him well-placed to contribute to the effectiveness of the education team at Mayo Healthcare.

Sam

Kate

Kate Sykes
RN BN Certificate IV TAA

Kate has extensive experience in Emergency nursing and Education. Her goal is to deliver comprehensive clinical training and learning outcomes that can be applied directly in the clinical area.

Clinical Workshop Calendar Feb 2012 - June 2012

Mayo Healthcare workshops promote excellence through the exploration and integration of theory and clinical practice

What others say about Mayo Healthcare Workshops...

"Really like the hands on and team work!"

I did find it extremely beneficial and would definitely recommend the course to colleagues. Thank you!"

March 2011

"An excellent and well presented workshop"

March 2011

"Whole day was very educational and answered all my queries and more..."

March 2011

"Instructor - very knowledgeable and confident in teaching"

"Loved playing with the equipment and applying theory to practice"

April 2011

"If you can't explain it simply, you don't know it well enough". Albert Einstein

Mayo Healthcare Workshops

- Workshops are suitable for all medical professionals and include theory and principles, clinical applications and interactive group sessions using devices & simulators
- We offer all levels of training programs from Introductory to Train the Trainer.
- Pre-learning packages, comprehensive resource folders and attendance certificates are provided.

We take great pleasure in announcing the arrival of **On-Line Workshop Registration for all Mayo Healthcare workshops!** You can now browse, register for workshops, download course pre-reading materials, check out upcoming courses, print attendance certificates and set up a workshop account - all with the convenience of 24 hour online accessibility.

PROGRAMS

Choices & Challenges with Central Venous Access Devices

- Types of CVADs - PICCs, CVCs, dialysis catheters and ports
- Selecting the right device
- New technologies with vascular access - impregnated catheters, power injection, ultrasound, intraosseous access, safety systems and ambulatory care
- The expanding scope of practice with CVADs
- Optimising CVAD outcomes
- Detection and management of complications
- CVAD management - flushing, assessment, securement and dressings

MST & Ultrasound Insertion & Management of PICCs

- The expanding scope of Practice with Insertion & Management of PICCs
- When to think PICC
- Instructor Guided PICC Insertion utilising the MST procedure with Insertion Practice
- Integrating new technologies into practice - including Pressure Injectable PICCs, Ultrasound and Safety Systems
- Enhancing critical thinking skills in the management of PICCs, from flushing to securement and dressing
- Assessment, detection and management of complications with PICCs.

Day 1 - Essentials of IABP

- Review of cardiac haemodynamics
- Principles of IABP timing
- Principles of IABP therapy
- Troubleshooting alarms
- IAB catheter insertion and pump set up
- Indications, contraindications and complications
- Correct trigger choice
- Patient monitoring
- Understanding IABP waveforms
- Real time case studies

Day 2 - Consolidating IABP Therapy

- Optimising patient support
- Coronary perfusion pressure
- Troubleshooting timing
- Optimising the AP waveform
- How important is Diastolic Augmentation?
- Weaning IABP therapy
- Leading research
- Integrating new technologies into practice
- Advanced timing mechanisms & effects of timing errors
- fiber optics, aortic flow timing

Theory & Management of NIV - (1 Day Workshop)

- Principles of gas exchange
- Complications
- Indications and applications of NIV
- Masks and circuits
- CPAP vs BiPAP
- Alarms and troubleshooting
- Initiating, monitoring and titrating therapy
- Waveforms

Non-Invasive Ventilation - 2 Day Workshop

DAY 1

- Principles of Respiration
- Oxygen Therapy
- Blood gas analysis
- Principles and concepts of NIV
- Clinical application of NIV
- Indications of NIV
- NIV in specific disease states
- Essential monitoring during NIV

DAY 2

- Advanced Blood gas analysis
- Introduction of respiratory dynamics/Pulmonary mechanics
- Introduction to respiratory graphics in NIV
- Clinical application of respiratory graphics in NIV
- Monitoring & titrating NIV therapy
- Factors in improving success in NIV
- Weaning practices in NIV
- Use of NIV to Accelerate ET extubation
- Failed NIV - the sequele

Vascular Access in the Emergency Setting

- Options with Peripheral, Intraosseous and Central Vascular Access
- Optimising success with insertion of peripheral & intraosseous access in the emergent situation
- Simulated Insertion of Intra Osseous & Emergency Peripheral Access
- Managing and monitoring the insitu vascular access
- Detection & Management of complications with emergent vascular access

Workshop Calendar Feb 2012 - June 2012

Theory & Management of NIV - 1 Day Workshop

Fraser Coast	21 March 2012
Townsville	2 May 2012
Brisbane	23 May 2012
Sunshine Coast	13 June 2012

Non-Invasive Ventilation - 2 Day Workshop

Adelaide	2 - 3 April 2012
Sydney	17 - 18 April 2012
Melbourne	16 - 17 May 2012

Intra Aortic Balloon Pump - 1 Day Workshop

Brisbane	18 April 2012
Adelaide	17 May 2012
Newcastle	7 June 2012

Intra Aortic Balloon Pump - 2 Day Workshop

Melbourne	21 - 22 March 2012
Sydney	22 - 23 May 2012
Melbourne	6 - 7 June 2012
Canberra	13 - 14 June 2012

MST & Ultrasound Insertion & Management of PICCs

Sydney	3 April 2012
Canberra	27 April 2012
Melbourne	29 May 2012

Choices & Challenges with Central Venous Access Devices

Orange	22 March 2012
Sydney	12 June 2012
Brisbane	21 June 2012
