

# Arrow Pneumothorax Catheters

# ARROW

For percutaneous  
aspiration of simple  
or spontaneous  
pneumothorax.

Arrow  
Pneumothorax  
Catheters

**Arrow offers a simpler, less traumatic way to treat simple or spontaneous pneumothorax.**

Replace the traditional trocar chest-tube technique with a percutaneous method to treat pneumothorax and restore proper lung function with the Arrow Pneumothorax Kit.

- Easily learned, easily performed percutaneous procedure.
- Depth marker helps indicate proper positioning of the air aspiration holes.

- Excellent kink-resistant polyurethane softens in situ so the device can remain in place until air removal is complete.

**Reduces cost, minimizes patient trauma.**

- Reduces cost compared to a more invasive trocar procedure.
- Minimizes patient trauma due to the small size of the 8 Fr. catheter.
- Less patient discomfort for treating simple pneumothorax.
- Comes as a complete kit.

**Ordering Information**

Product No.	Description	Per Case
<b>AK-01500</b>	<b>Pneumothorax Kit</b>	<b>5/case</b>

One: Catheter: 8 Fr. x 6.44" (16 cm) Radiopaque over 18 Ga. RW Pneumothorax Needle
