IS Can™

Pre-filled Disposable CO₂ Absorber

The IS Can is an easy to use disposable absorber that has been developed specifically for clinical use during anaesthesia to absorb carbon dioxide within an anaesthetic breathing system.

The IS Can is compatible with the following GE anaesthetic workstations: Aespire®, Avance®, Aisys®, ADU®

Fast and easy exchange

The IS Can enables fast exchange of absorbent without the need for time consuming pouring of loose granules, or the risk of contamination.

No dust emission

Foam filters ensure that any fine particles or dust are retained within the IS Can and not allowed to escape into the breathing system or into the atmosphere during handling.

Efficient CO₂ absorption

A gas dispersion chamber at the base of the IS Can allows for optimum flow up through the absorbent.

Code	Description	Units
2198	IS Can containing LoFloSorb (green to violet colour change)	6
2197	IS Can containing Spherasorb (pink to white colour change)	6
2196	IS Can containing Spherasorb (white to violet colour change)	6
2195	IS Can containing Intersorb Plus (pink to white colour change)	6
2194	IS Can containing Intersorb Plus (white to violet colour change)	6
